

Water Filtration Activity

- 1. Fill a glass with some dirty water from a puddle outside.**
- 2. Cut the bottom off a plastic bottle and fill it with different layers of textured, natural materials.**
- 3. Place an empty glass underneath the bottle.**
- 4. Pour the dirty water into the top of the bottle and watch it trickle down into the glass.**

Has the water changed colour and why?

What colour is the cotton wool now?

What other natural materials could you try?

Is the water cleaner than before?
