

# Make your own Coal Creature

- 1) Show students pictures and information cards for creatures found in a coal mine.
- 2) Have a go at making some of the bugs using any of the following (or any other materials you can think of!)
  - **Polystyrene balls**
  - **Pipe cleaners**
  - **Pom poms**
  - **Tissue paper**
  - **Fabric**
  - **Wiggly eyes**
  - **Sequins**
  - **Feathers**
- 3) Encourage students to think about where their creature lives, what it eats and what is special about it while they are making it.
- 4) Use the index cards to record the information about the creatures.
